

download\_and\_rehead\_FASTA

```
graph TD; A(download_and_rehead_FASTA) --> B(get_ancestral_alleles); A --> C(all); B --> C;
```

The diagram is a flowchart with three nodes. The top node is a red-outlined rounded rectangle containing the text 'download\_and\_rehead\_FASTA'. An arrow points from the bottom of this node to the top of a green-outlined rounded rectangle containing the text 'get\_ancestral\_alleles'. Another arrow points from the bottom of the 'download\_and\_rehead\_FASTA' node to the top of a teal-outlined rounded rectangle containing the text 'all'. A third arrow points from the bottom of the 'get\_ancestral\_alleles' node to the top of the 'all' node.
